The online Spanish courses are managed over the University of Jaén's virtual teaching platform and are taught in synchronous format with videoconferences. Due to their online nature, these courses apply a methodology appropriate for e-learning using teaching resources, tasks and strategies adapted to this learning context.

General courses

Designed to develop students' communication skills, they combine oral and written practice activities and work on all modes of communication (expression, comprehension, interaction and mediation). Special attention is paid to the cultural component and to developing learners' The academic offering includes eight levels, taught in autumn (first term) or spring (second term).
